

WRESTLING WITH a washable doll, Anthony Cappi, one of the fathers-to-be who recently graduated from the four weeks' course on handling a baby, gets a pointer or two on the proper technique of diaper-changing. The instructress at the school is Sarah Gould. Other brave fathers-to-be look on wondering how Tony manages to account for all those ends.

Needed Rest Prompts H. R. Russell's Leave;

Name G. B. Holmes Summer Dean

When the junior college summer session opens June 20, George B. Holmes, head of the commerce department, will replace H. R. Russell as dean. Mr. Russell started to serve as dean in 1934 and served in that capacity for three years. Last year Mr. Holmes substituted for Mr. Russell when the latter vacationed in the east.

Needing rest during the summer months, Mr. Russell has given up his office entirely this year.

Announcement of the courses of the session to be held from June 20 to July 29, may be had in the office of the college. Registration fee and small tuition are being charged to aid the self-supporting school. There will be small jobs for those desiring to work this tuition out, Mr. Holmes revealed.

With a faculty composed of the regular junior college instructors and some from the local senior high school, all essential high school and junior college subjects will be offered.

Although their names have not as yet been disclosed, 12 new members have been elected to Beta Gamma, campus extra-curricular honor society, President Dick Phillips stated today.

Names of the students are being withheld until next meeting when the 12 will be called on to deliver impromptu speeches to the entire society.

Following luncheon and a short business meeting at the hotel, the group will visit the Laguna and Rembrandt Potteries and several art studios in the town.

DIRTY 'POLITICS' TABOO

(An Editorial)

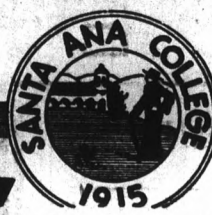

Action of a few students at Wednesday's primaries for Don and Dona was deplorable! It was unfortunate.

Unruly acts which smell of dirty "politics" have no place in this college. When a few deliberately take it upon themselves to make an apparent attempt to "stuff" the ballots, they are showing their true colors—their admission they don't know how to play fair; that if they can't win according to the rules, they will use any means to accomplish their ends.

It was unfair to the Don and Dona candidates. It was unfair to the integrity of jaysee students.

The election consequently had to be postponed until yesterday. In Monday's finals, let us resolve that we will cast our votes for our favorite choice. And let the final results be our true expression.—The Editor.

TO HONOR INSTRUCTORS

Abolish Jaysee Class Fees

Two New Changes Set For Fall Semester

ARRANGE DETAILS

OTTO GRIGG (above), president of the Alumni association, and **Dick Phillips** (below), Associated Student president, are assisting in arrangements for the banquet honoring Instructors **Edward M. Nealley** and **L. L. Beeman**. Director **D. K. Hammond** is in charge of the faculty arrangements.

Fees in all classes will be discontinued when college begins its fall term, according to information revealed today by Director D. K. Hammond.

In an effort to follow the precedent set by most Southern California junior colleges, no charges will be made to students for any of the courses in the 1938-39 curricula, Director Hammond explained.

"In former years," the director said, "students have had to pay fees for science and other courses to make them realize their responsibility in college." It was pointed out that many university courses covering the identical material cost from \$20 to \$30 at the present time.

Other local changes noted in the catalogue, which was made available for jaysee students this week include a course in English history to be instructed by Mrs. John Tessmann, and a separation of the journalism department from the English division.

Allen Gets Part In 'Stage Door'

Replacing Lawrence Trickey in "Stage Door," this year's Fiesta play, Joe Allen was today preparing to take a part in the second major play in which he has been cast this year.

With four other members of the "Goose Hangs High" cast—Vic Rowland, Russell Haney, Catherine Eklund, and Anne Wetherell—cast in "Stage Door," rehearsals are being held daily and nightly in the YMCA lobby.

For the first time since the original Fiesta play, "Taming of the Shrew," given 10 years ago, the drama will first be presented for adults, high school, and elementary school students Thursday, May 19. The performance given for county high school seniors will be given on the following day, Fiesta day.

JC'S HONORED GUEST

GOV. FRANK F. MERRIAM has agreed to be present at the jaysee's eleventh annual Fiesta day celebration Friday, May 20. The governor this week visited with his nephew, Franklin Guthrie, local student.

Nealley, Beeman Will Be Feted At Banquet

Santa Ana jaysee instructors E. M. Nealley and L. L. Beeman who are retiring this year will be honored at an alumni-jaysee sponsored banquet and reception to be held Tuesday, May 31 at the Ebell clubhouse, at 6:30, it was revealed today by D. K. Hammond, dean and director.

Mr. Hammond said that invitations have been mailed to all members of the Alumni association headed by President Otto Grigg, and that jaysee students were invited to attend. The reception, also held in the clubhouse, will begin at 8:30.

Admission to the banquet will be \$1 per plate, it was announced.

Reminiscent stories will feature the banquet as grads recall past days when Mr. Nealley and Mr. Beeman participated in student activities, as they served in their respective terms of 21 and 17 years.

From 1920 to 1922 Mr. Nealley was dean, and in those years about 150 students attended the Main street plant. Social functions were held in the Nealley home, and "students were permitted to dance there," Hammond added.

There were no service clubs then, but L. L. Beeman who taught Political Science founded the students' International Relations club "and established a feeling of international unity."

Plan All-College Banquet Affair

Preparations for the annual all-college banquet, to be held June 15 at Santa Ana country club are proceeding smoothly, Associated Student President Dick Phillips said today.

Heading committees for the banquet are Peggy Paxton, general chairman; LaVonne Franson program committee; Bill Semnacher, orchestra; Josephine Butler, decorations; and Donn Hart, advertising.

Junior Forum To Hear F. Burke Tuesday

J. Frank Burke, owner of radio station KFVD and former publisher of the Santa Ana Register, will speak of "Propaganda on the Radio" to the junior forum class Tuesday morning in C110, instructor.

STUDENTS 'PROPOSE' LAST-DITCH PLAN

SINCE THEIR MOST desperate efforts to arouse public interest and support in a much-needed new Santa Ana Junior college plant has apparently failed, local students have set upon the plan (above) of erecting their own college buildings. This is a last-ditch idea, but one that will at least get something tangible done, "observers" believe.

Fete "Grand Old Men"

Jaysee's two "grand old men"—Edward M. Nealley and L. L. Beeman—will be feted May 31 by students, alumni, and faculty.

Both will receive this small tribute from those who have known them in the many years they have been with us. This dinner is being arranged so that everyone may express their feelings to these two veterans.

This is a fine gesture on the part of the alumni association, and others responsible for its formulation.

Both instructors have contributed much to the intellectual growth of the college. Both have been familiar and loyal proponents of this institution.

Too much urging to show a little appreciation for the efforts of Mr. Nealley and Mr. Beeman cannot be over stressed.

—The Editor.

Calling All Musicians!

Now comes word that several students on the campus are attempting to get up enough interest to form a real college band. should meet with the instant

This is a noble aim, and one which should meet with the instant cooperation of all loyal Dons who play an instrument. Football season will be rolling around in not too long a while, and this naturally calls for a band.

Last year it was necessary to use the NYA and local high school bands. What a state of affairs! There certainly should be enough talent on the campus to make up a musical organization which would do the college up proud.

Consequently, we urge all musicians—even if you only play a triangle—to lend your support in making this a worthy and successful project.—The Editor.

Board Comes Through

If the current executive board is remembered, it probably will be for the act which is now being discussed. And that is the changing of the present antiquated system of Associated Student ticket books into a more compact and convenient card.

It has always been a wonder why previous student councils had not thought of this change before.

This new ticket will undoubtedly meet with universal approval by the students. It should, for it will do away with unnecessary bulkiness and confusion.

The executive board should be congratulated for this step forward.—The Editor.

Spring And Fiesta Here

Spring is in the air (even though it has been hiding behind those clouds in the past week.) And with it comes just lots and lots of things. The chief thing is the annual Fiesta, which this year will be Friday, May 20.

Fiesta is a day of celebration. It is a period when we forget our books, and any other cares we might have—and have a good time.

Because of this, and too—we are hosts to several hundred county high school seniors who will some day be Dons—let us resolve to get into the spirit of things in a big way. Talk up this biggest of all college events. Get your costumes ready and promise yourselves you'll all have a good time.—The Editor.

But It's True

The letter to Mr. Bent was written by Harvey Smith and was mailed in Dayton, Ohio, in 1899. There was never an adequate explanation as to the delay. Mr. Bent had moved from the address used on the envelope, but still lived in Cleveland, and does yet.

The purpose of the exception, as far as Francis Scott Key's grave is concerned, is to make true always the line in Key's Star-Spangled Banner: "Gave proof through the night that the flag was still there."

Byrnes, in business in Tokyo for the last 22 years, became a subject of the emperor in 1933.

Record Movements Of Pedestrians TALLY NUMBER OF STUDENTS

"Alright, you can come across the street now," said Traffic officer C. D. Flower, on duty in front of Santa Ana Junior college.

I crossed the street, and while walking up to Officer Flower, I began to size him up physically. Flower is a man about five feet five inches tall—but of a presence so commanding as to make his stature seem even greater.

"Officer," I said, "can you tell me how many students cross this street at this intersection every day?" Naturally, it was a most silly question, and I expected one of those, "well, it's hard to tell, but I'd say about—" but lo., he took out a small black book, and he turned several pages finally arriving about the middle of the book.

"Here it is," as he handed me the records in the book. And believe you me, there it was. Officer Flower had taken down the exact number of students who cross the intersection in front of jaysee.

According to the traffic officers records, there were 1902 students who crossed that intersection on April 16, 1933. This proves that every student in jaysee crosses here at least twice a day. And if we take the average height of college pupils at five feet five inches, by placing them end to end, we would have a line of students over a mile long!

"Of course," continued the traffic officer, "that day was one of my small ones, and I had an opportunity to count just how many came across."

"And," he said as he turned the page over to show me the other side, "here is something else."

There before me, in exact figures

Catch Fiesta Spirit RE-LIVE OLD DAYS

Fiesta day approaches! The time when the spirit of freedom and romance of the days of old California is felt by every Don and Dona. It is a tribute paid to the founding of the true spirit for which our college is so well known.

La Fiesta has taken its place as the most treasured and appropriate tradition of Santa Ana Junior college.

For the eleventh year we glory in the atmosphere of our Spanish traditions, and prove we have the same spirit as the former students of this institution.

Ed Ainsworth, noted columnist, once said of the affair, "the most authentic amateur Spanish festivity put on in this part of the country," and to this we will agree. We should strive to retain this reputation of the Fiestas gone by.

Instructors as well as students throw the worries of studies into the wind and let memories of old slip into their thoughts on this day of gala celebration.

The spirit of the Spanish Dons, with the real Latin courtesy and friendship, will prevail—Otto Huber

was the exact amount of automobiles which passed that intersection April 16, 1933. On that particular day, a small one, there were 5160 cars which passed jaysee. If the average length of an automobile is eight feet, by putting the cars end to end, we have a line of cars over eight miles in length! Imagine, that many, and usually more, cars passing in front of this college every day.

With these totals in mind, if we take into consideration that there are 244 school days, then by multiplying by eight for the cars, and by one for the students, and put them all in to one straight line toward the Atlantic ocean, the line would end somewhere in South Carolina very near to the Atlantic!

Each day with the regularity of a clock, Officer Flower tips back his hat, saunters out into the intersection before jaysee, holds up his hand and stops several of the 5160 automobiles so that one of the 1902 students may cross the street safely.—HAROLD BARRETT

Is Apprentice Work PRINTERS GET JOBS

Greater demands for printing apprentices than has occurred in many years has resulted in the placement in permanent positions of several jaysee students.

In a year's time, requests have come from five local printshops and an engraving company for apprentices, Thomas E. Williams, head of the printing department, revealed recently.

Those who have been placed are Frank Hertzberg at the Santa Ana Engraving company, Thomas Weir with the A. G. Flagg printshop, Keith Stewart for the Santa Ana Printing company, David Sheppard at Artercraft, Bob Dunning working for the Kenrok Press, and Cecil Starns and Jack Tyler on the Santa Ana Journal.

Scientific Method Explained WANT A SUN TAN?

How to get a scientific sun-tan!

No, it's not an ad for a patent medicine but it is pretty good to know if you are new in the art of baking, or if you are allergic to old Sol's beams.

According to J. Russell Bruff, head of the science department, the doses of vitamin rays should be taken in relays, although the affects of the sun are not alone responsible for benefits to health.

RELAX MUSCLES

Frederick Schroeder of the science department said that one can get rid of athlete's foot, lower the blood pressure and relax tired muscles while basking in the warmth of a sunny beach.

Sunburn can be acquired in such copious quantities if taken in one dose that it can result in fatal consequences. The tragic end of the colorful screen career of Jean Harlow can be traced to the affects of skin ailment brought on by sunburn.

LEATHERY SKIN

Beside this it is believed that an overdose of the sun's rays can have effect upon a person when he gets older. Many nervous disorders are traceable to some such rash over baking of the individual when he was younger.

It has also been found by authorities that a heavily tanned skin will not absorb any of the sun's benefits. The leather like epidermis in effect "turns away" the rays.

USE HORSE SENSE

Sun ray lamps are beneficial, but if the modern youth wishes to appear as the heavenly contribution to America's womanhood, he might get his aims by wrapping himself in nature's kimono and tan. And according to science, the best way to get the best tan is to use horse sense by taking it easy for the first few rounds in the battle of the sons.—Tom Powell.

Origin Of Custom Is Given HONOR ALL MOTHERS

Mother's Day was originated by a spinster! Thirty years ago the first observance of Mother's Day was celebrated in Philadelphia churches by some 200,000 people. In two years the idea had spread into every state in the union.

When her pastor asked Miss Anna Jarvis to arrange a memorial ceremony for her deceased mother, she conceived the idea of setting aside one day each year to honor all mothers, believing that the modern generation showed neglect and lack of appreciation for the sacrifices made by their uncomplaining mothers.

DISPLAY FLAGS

In 1916, President Wilson issued a proclamation stating that the second Sunday in May should be recognized nationally as Mother's Day and that the American flag should be displayed on all government buildings and in homes as a public expression of love and reverence.

The practice of wearing white carnations began in a Seattle church in 1910 where ladies brought bouquets of flowers. They raised them aloft at a signal from the pastor and received his benediction. After the service, the flowers were gathered and placed on the graves of mothers whose relatives were unable to extend this honor.

IS RACKET

In the past few years, Mother's Day has become a racket. Florists began to charge exorbitant prices for a single flower, merchants dropped a hint that living mothers would appreciate a box of chocolates or a bit of jewelry. Now we can drop in at the last minute to the telegraph office, pick out an appropriate message from a long list of sentimental gush, and send it off for a few cents.

Undoubtedly, most mothers would much prefer their negligent offspring to give them an affectionate pat on the back and the honest if unsentimental statement that "You're a pretty good egg, Mom."—Mary Mulhall
